PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience across the full software development lifecycle — designing, building, testing, and deploying applications in Python, Java, C++, and JavaScript. Comfortable working across the stack with React.js, Node.js, and REST APIs, with additional depth in applied machine learning and computer vision. Delivered AI/ML, full-stack, and CV projects end-to-end using Agile practices, and is now looking for an entry-level Software Developer role to keep building production-grade software.

TECHNICAL SKILLS

- Languages: Python, Java, C++, SQL
- Frontend: HTML5, CSS3, JavaScript, React.js
- Backend: Node.js, Express.js, REST APIs
- Databases: MySQL, SQLite
- AI/ML: TensorFlow, Keras, OpenCV, MediaPipe, Scikit-learn, Pandas, NumPy
- Tools: Git, GitHub, VS Code, Jupyter, Postman
- Practices: SDLC, Agile/Scrum, OOP, CI/CD, Testing & Debugging

PROJECTS

Placement Management System | *React.js · Node.js · MySQL · REST APIs*

- Built a full-stack placement platform end-to-end, from database schema to a React front end consuming a custom REST API.
- Tuned SQL queries to cut page load time by 30%, and wrote clear API documentation for future maintainers.

Nexus AI | *Python · TensorFlow · Keras*

- Designed a CNN-based baggage classification system using transfer learning, reaching 92% detection accuracy.

Advancing Aviation Security Through Machine Learning | *Python · Neural Networks*

- Built a deep learning pipeline that applies neural networks to strengthen aviation security screening.

AI Virtual Painter | *OpenCV · MediaPipe*

- Built a gesture-controlled painting application with real-time hand tracking, optimized for smooth, low-latency performance.

Portfolio Website | *React.js*

- Designed and deployed a fully responsive personal portfolio site showcasing projects and skills.

EDUCATION

B.Tech — Computer Science & Engineering (2022-2026)

Aurora's Technological and Research Institute | CGPA: 7.5

CERTIFICATIONS

-
- Python Programming — Infosys Springboard
 - Java Programming — Infosys Springboard

ACHIEVEMENTS

-
- Solved 250+ coding problems across competitive programming platforms.
 - Active open-source contributor on GitHub.
 - Regular participant in competitive programming contests.
